Cast Introduction

Yuuki Mikan

Rito's sister. Rather than taking issue with the whole "Lala is an alien" thing, Mikan welcomes her into their home with open arms. She had to grow up fast and is quite a stable, level-headed person.

Lala Satalin Deviluke

The first princess of the planet Deviluke, the world which governs the entire Milky Way Galaxy. When she ran away to Earth, she happened to meet Rito, then fell in love with him and moved into his house.

Sairenji Haruna

Rito's classmate who has yearned to be with him since they were in middle school together. She confided these feelings to Lala, and became her rival for his affections.

Run Elcie Jewelria

Royalty from the planet Memorze. Run and her brother Ren once shared one body, but split into separate persons upon coming of age. Run is one of the many people in love with Rito.

Master Nemesis

A being born from a completely different plan to develop transformation weapons than Yami and Mea. Using Mea as part of a plan to pull Yami back into a life as a living weapon.

Yami (Golden Darkness)

A terrifyingly skilled assassin, viewed as the most deadly in the universe. She received orders to eliminate Rito and made her way to Earth, but before she realized it, she had grown accustomed to life on that blue world!

Nana Astar Deviluke

Lala's other younger sister, and the second princess of Deviluke. Possesses the ability to commune with animals.

Momo Belia Deviluke

Lala's younger sister, and the third princess of Deviluke. Possesses the ability to commune with plant life. She seems sweet and innocent, but in reality, has a hidden side...

Super-sweet, super-innocent Yuuki Rito's days of trouble have begun anew! In the middle of Momo's work to set up a harem for Rito (the "Harem Plan"), Yami's younger sister Mea appears on the scene, plotting to bring back Yami's fighting instincts! One day, Nemesis herself shows up in Sainan, claiming that sleeping within Yami is the power of "darkness," the true essence of a weapon!

Yuuki Rito

A sweet, innocent high school student who leads a life full of never-ending trouble. His heroic personality naturally attracts the love of all those around him!

Kurosaki Mea

A living weapon, created based on data taken from Yami. While trying to make Yami get rid of Rito, she ends up becoming quite interested in the young man and his friends!

READING DIRECTIONS

This book reads from *right to left*, Japanese style. If this is your first time reading manga, you start reading from the top right panel on each page and take it from there. If you get lost, just follow the numbered diagram here. It may seem backwards at first, but you'll get the hang of it! Have fun!!

Drunk on Love

Haruna has always been a breed apart from the other girls around Rito: demure, mild-mannered, and traditional. She's even accepted that her friend Lala is in love with Rito. But a strange beverage from outer space is about to wipe away all her inhibitions. When Haruna has nothing to hold her back, will she finally confess her love to Rito? And will she want him all to herself—or become the newest supporter of the outrageous Harem Plan?!
